Hello,

please find attached an update of the track changes file.

As an intermediate result, I have progressed to clause 9.4 (inclusive) and have confirmed most of your suggestions.

I have added comments, suggestions for changes and new questions in some places.

I can't see a pattern as to when "Clause", "clause" or neither is used. Therefore, I leave this aspect to your expertise.

You asked me for proof of permission to quote Figures 19 and 21:

The PowerPoint file "ISO_PAS_8329_Figures-master.pptx" contains the source URLs

The image we use for fig. 19 is an older version:

It leads to <https://creativecommons.org/licenses/by-sa/3.0/>. I have highlighted important parts in yellow:

2. **ShareAlike** — If you remix, transform, or build upon the material, you must distribute your contributions under the [same license](#) as the original.
3. **No additional restrictions** — You may not apply legal terms or [technological measures](#) that legally restrict others from doing anything the license permits.

Notices:

You do not have to comply with the license for elements of the material in the public domain or where your use is permitted by an applicable [exception or limitation](#).

No warranties are given. The license may not give you all of the permissions necessary for your intended use. For example, other rights such as [publicity, privacy, or moral rights](#) may limit how you use the material.

Where “[appropriate credit](#)” is explained as:

If supplied, you must provide the name of the creator and attribution parties, a copyright notice, a license notice, a disclaimer notice, and a link to the material. CC licenses prior to Version 4.0 also require you to provide the title of the material if supplied, and may have other slight differences.

And “[indicate if changes were made](#)” is explained as:

In 4.0, you must indicate if you modified the material and retain an indication of previous modifications. In 3.0 and earlier license versions, [the indication of changes is only required if you create a derivative](#).

That's where I got the strings

and

from.
I assume, these strings fulfil the requirements highlighted in yellow above and provide the “written permission” you asked for.

Enclosed you will also find the updated PDF file for your convenience.
