Comments & Hints:

- JVH wrt. [#61](#): I think we also have a PDES user story from Penn for fastener catalog support in STEP?
- JVH wrt. [#59](#): There is also an *adhesives* symbology standard that is modeled similarly to the AWS.
- GH wrt. [#92](#): I attached public example CAD files to [#104](#), which could be useful for recommendations and their use cases.

Next meetings are scheduled ...
